When Alexandra wakes up in an unknown environment, populated by a cat-like woman with a tail and a hologram of a rockstar, she knows she has to be hallucinating. Maybe she has hit her head, or finally suffered a nervous breakdown. It doesn't get any better from finding out she died and was taken into the future by the elusive Adam, whom she can't remember, or from people telling her she's on a spaceship.

The last year or so is gone from her memory, and she has no choice but to try to adapt. As days go by, her new environment becomes more and more unnerving. She finds herself helpless, and completely dependent on a man who isn't even human.
